6 WAYS TO BE A DOGGONE SAFE BUS RIDER

Riding a bus is so much fun, especially when you follow Safety Dog's tips for being a doggone safe bus rider.

1. STAND BACK

Stay 10 giant steps away from the outside of the bus at all times. If you stand too close, the bus driver can't see you.

2. BE PATIENT

It's exciting to be first on the bus, but it's more important to be patient. Be still until the bus completely stops, wait for your bus driver and give your friends plenty of room as you come on board.

3. USE THE HANDRAIL

Heavy backpacks and wet shoes are no match for the handrail. Hold on tight when getting on and off the bus to keep from tripping.

4. SIT THE RIGHT WAY

Once you sit down, keep both feet flat on the floor and your back against the seat.

5. STAY IN YOUR SEAT

Always stay in your seat while the bus is moving.

6. BE A HELPER

Driving a bus is a big job! Your bus driver must pay attention to the road at all times. You can help! Use an inside voice and be on your very best behavior.
